Straw-Cutter Question. the city of New Albany, in the State of Indiana, claiming to be the owners of Sanford's pateut right to manufacture what is known as Sanford's straw-Gutter, have sold the right to manufacture the same to various persons for certain prescribed territories, and they have warned the public askinst purchasing the Straw-Cutter manufactured by us. We have been tora long time satisfied that the so called Sanford patent is a fraud, and tbatit is void, being a palpable piracy and au infringement of the patentright of John Roynton, which lears date 18th day of September, 18-2, and has expired. We have been satisfied that the machine de nominated Sanford's Perfect Siraw-Cutter is construct ed, not according to the specifications contained in Boynton's, and all this has been recently so decided in the U. Suggestions, and are a fitting communitary on the reckless statements of the abolition press:

"The Senate of Virginia have lately passed a bill for the voluntary enslavement of a free negro of Southampton county. He is an old man, sixty years of age, and has been lately emancipa ed, but is anxious to remain in the condition of servitude, which he knows, by his own experience and convention, is the best and happiest condition for his race. So numerous are applications of this character that it has been found necessary to introduce a general law into the Legislature for the voluntary enslavement of free negroes of the Common-wealth."

The Force of Truth.

When the Kansas-Nehraska bill passed Congress it encountered the fierce invectives of a large of faith, a swindle, an iniquity, and its anthors demagogues and disturbers of the public peace. The opposition raised one simultaneous long and loud howl, Abelition politicians echoed and reechoed the howl from Maine to Iowa, Abolition by burning Senator Douglas in effigy. Never be- the law constitutional. fore had demagogues and demagoguery such a run. The more astute saw the chance of collect ing about this one great excitement, a secret or ganization to help on the Abolition cause, by summoning to its support the prejudices of race and religion. From every stump North came frothings, and cursings of slavery, mixed up partially Kansas-Nebraska bill; hut the storm left but a days. soors of tham standing from the free States.

Congressmen elected in this storm are assem bled at Washington. One hundred and twenty or tairty are pledged to kestility to the Kansas-Nebraska bill, and why do they not unite and hoge at one trip. This is the largest load of hogs mals, we feel an especial interest, and we are glad carry ont their purposes? They are afraid. They we have ever heard of, and we incline to think to see an interest being manifested in this partictalked flippantly on the stump in order to get votes; but spouting to gratify sectional, local, or country. sectarian prejudice is one thing, and voting in Congress another.

The principle established in the Kansas-Nebraska bill commends itself to the sober judg- fashionable assemblage. It will be a night full of be sustained, and the demagogues see that it will abundance and enjoyment let us not forget the unbe sustained by the country. Hence we see that happy orphan. there is a most unexpected defection at Washington. Men who were foremost in noisy declamation about the Nebraska iniquity, who denonneed the Administration and the demagogue Dongiae, are taken with a strange distemper. When the apti-Nebraska roll is called they don't answer. They are sticklers for nice points; and some of them flatly refuse to restore the Missouri compromise, and begin to talk about nationality, and letting past legislation alone.

We don't mean now to say that the force of truth has been felt by any of these demagogues, grown quits cool, and early in the afternoon icc but they see which way the current is running. They see what effect discussion has produced; that the Nebraska bill stands upon an impregnable basis, and that it is of no use to make war upon it. Instead of destroying it, it will destroy

Every Day Brings Something New. So much has been said about Ambrotypes, Photodeserves the palm. There is one thing, however, that we feel justified in saying to our lady readers, and that ls: If they will visit Norsberg's Mammoth Daguerrean Gallery, No. 531 Main street, between Second and Third. they will find some of those elegantly finished and lifelike Daguerreotypes which have rendered these rooms the resort of the beauty and fashion of the city and the light and red hair appear as dark as midnight (a fault by far too common in Ambrotypes), but they show a proper distinction of light and shade, and "hold, as 't were, the mirror up to nature," correctly portraying the peculiar features of the originals. all to be no longer humbugged with high priced likenesses, while these magnificent pictures may be obtained for fifty cents and upwards. Necessaries of Life.

Flour, Whisky, and Tobacco have long been regarded the necessaries of life—but it is a mistake. We can 't buy Flour—that is, Daguerrecty pists can 't—for it is too dear; the temperance men wont let us drink Whisky, and the Tobacco crop is a failure. What we can't get it is plain we must do without, and what we can do without is not a necessary. The proveri, then, is a false-ood. But one of HARRIS'S Daguri cotypes-bright, sparkling, rich, boid, and clear—which we can get and annot do without—that is a necessary of life. no23

 Rain commenced falling here, freely and steadily, Friday afternoon, continued all Friday night, all day on Saturday, and when we wentto press last evening was still falling, with every indication of continuing to do so for some days to come. The river is already full enough for big boats and rising rapidly.

The St. Louis Intelligencer, of the 2 th, says:

The river here continues to fall, but not as rapidly a might have been expected. During the twenty-four lours, ending at six o'clock last evening, it had faller about one foot. We hear that there is a rise of considerable magnitude, coming from above Dubuque, in the Mississippi, and a'so that the Missouri at Brunswic't had risen seven feet: if such be the case, we shall have plenty of water for some time to come.

Mr. Sapp offered a resolution that after to-day the House shall meet at 10 o'clock in the morning till the election of Speaker is effected. Rejected

Mr. Perry said that the House had decided today that it will not elect a Speaker by plurality, therefore they were brought back to the former ground of voting on the majority principle. thought if this was adopted it would result in a speedy organization of the House.

Mr. Keil offered an amendment that after today all ballotting for Speaker shall be suspended until the 3d of January. The reason assigned was that the majority of the Senate have left the city, and it was therefore impossible to organize so as to receive the President's message before that Mr. Bocock suggested that acting under a par-

liamentiary law, a majority might receive the resolution and proceed to ballot—an advantage might therefore be taken.

Mr. Keitts replied that he would repose on the good faith of the members and a breach of it would be base and infamous. Mr. Sherman maintained that the first business to the election of tained that the first business to the ejection of
